

TENTATIONS

Luxury Unfolded

Benefits

1 Luxury, Anywhere, Anytime

Deploy to remote or underutilized areas of your property - lakesides, vineyards, beaches, mountains - instantly converting non-revenue land into premium guest stays.

2 Year-Round, All Climate Operation

Insulated composite panels, three high-efficiency 15,000 BTU HVAC units, and optional fireplace enable usage across hot summers, cold winters, and everything in between.

3 Premium Guest Experience On or Off-Grid

Whether fully connected to site infrastructure or operating independently, Tentations offers spa-style bathrooms, full kitchens, climate control, and is configurable to your needs – elevating the guest experience beyond typical glamping.

4 Mobility as a Strategic Asset

With its Vehicle Identification Number (VIN) and roadworthiness, Tentations can be relocated between properties or used for pop-up hospitality during high-demand events, retreats, or seasonal expansions.

5 Sustainability-Forward

Minimal site impact, no foundation needed, and reduced material use vs. traditional construction – designed for low environmental impact.

6 Financing & Warranty Support

VIN enables RV-style financing programs. Includes a 1-year craftsmanship warranty, 3-year structural warranty, and optional 5-year extended warranty.

7 Accelerated Revenue Growth

Launch new experiences in just hours – no construction delays, zoning red tape, or lengthy permitting processes.

Features

1 Structure and Build

- 430 sq. ft. fully enclosed structure with additional drop down deck on a road-legal trailer.
- Includes Vehicle Identification Number (VIN).
- Lightweight, durable, insulated, wood-free composite panels with fire rating.
- Weather-proof, elevated flooring keeps unit above mud, snow, and ground moisture.

2 Luxury Interiors to suit your needs

- Configurable layouts: King suite, double queen, or custom sleeping setups (sleeps up to 6 comfortably).
- Full spa-style bathroom (optional) with rainfall shower, flushing toilet, and instant hot water.
- Full kitchen (optional) with microwave, oven, cooktop, fridge/freezer, sink, and cabinetry.
- Ample built-in storage and closet space for extended stays.

3 Climate & Comfort

- Three high-efficiency 15,000 BTU HVAC units with heat and cooling.
- Optional gas fireplace for added luxury and seasonal ambience.
- Retractable stairs and deck for seamless indoor-outdoor flow.
- Sound insulation and blackout features for a quiet, restful experience.
- Twelve oversized windows with 3-layer functionality: blackout shades, mesh screen, and clear PVC.
- Excellent natural light and airflow control for energy efficiency and guest satisfaction

4 Technology & Connectivity

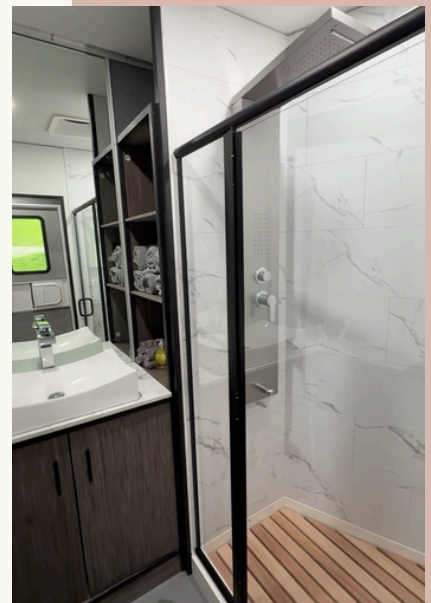

- 50 amp power hookup supports full electric appliances, lighting, and climate control – aligned with evolving RV park standards.
- Electrical panel with breakers, receptacles, and dimmable LED lighting.
- Off-grid ready: Owners can easily add solar or connect to a generator for full off-grid operation.

5 Mobility & Deployment

- Lightweight aluminum chassis.
- Expands from trailer to tent in just hours.
- Stabilized with 8 x 7,000 lb retractable jacks.
- Retractable arms and fold-down deck system.
- Securing system includes d-shackles and undercarriage tie-downs.

6 Compliance & Safety

- Tent fabric exceeds CA State Fire Marshal standards & NFPA-701 compliance.
- Panels certified to FMVSS302 and CA Prop 65.
- Tent is removable and exchangeable.
